Attention: Meeting and social event planners...

If you're searching for that special event in Boston that is educational, interesting, and kind to your meeting planning budget, look no further! ***Walking Tours of Historic Boston*** may just be the thing for which you are looking.

During a recent multi-day meeting in downtown Boston, our group utilized the services of ***Walking Tours of Historic Boston***. Led by tour guide, Ben Edwards, the group took a colorful journey through the streets of historic old Boston. It was truly an amazing experience in which Ben recreated scenes from the pages of history, featuring sites about which many of us had only read.

Ben, whose ancestors arrived in Boston over 300 years ago, did an exemplary job. He was extremely knowledgeable, courteous and utilized colonial-era documents to reinforce his narrations. It was readily evident that Ben truly loves his work.

Walking Tours of Historic Boston provided a wonderful respite from the rigors of our meetings and instilled in our group a much greater appreciation of our country's rich heritage and the important role the city of Boston played in it. It was definitely a crowd pleasing experience I highly recommend to all.

Sincerely,

Tim Brackman
Director of Development
